Team Impact announces its Fall pitching clinic starting on Sunday, November 4, 2012.

Seven weekly sessions will be held concluding Sunday, December 16th.

Each session will be 1 and ¼ hours in length. Class size will be limited to 16 students.

The fee for the clinic is \$100.

Individual evaluations and recommendations for each student are performed by our head pitching instructor Zach Green for all students.

We use a Jugs radar gun to accurately time each student's pitching speed at every clinic session.

We place each student into a group with other students who are on the same skill level to maximize teaching and learning effectiveness.

The clinic is structured into four different levels starting with level one for beginner pitchers and continuing on to level four, which is for the very advanced pitcher.

All students will be continuously challenged by the instructors to maximize their skill development and attain maximum individual achievement.

The instructors for the pitching clinic will be the coaching staff of the Team Impact softball program.
